THE BRAND

innit

Gotta be innit to win it.

Innit · Gotta be innit to win it.

THE IDEA

Innit turns “are you in?” into a brand

For UK adults who love the thrill of a big prize, Innit is the draw that makes being in it simple, social and straight-talking, and visibly fair on every draw.

Who it’s for

UK adults 18–40, phone-first, who share wins with friends. Entries of £5–£30, never a stretch.

What it stands for

Being part of the moment: live draws, real winners, entry caps and odds on every draw.

How it feels

Quick, warm and very British. Confident about the prizes, honest about the chances.

THE LOGO

One wordmark, one symbol

Clear space

Keep space around the logo at least the height of the ticket's punch hole.

Never altered

Don't stretch, outline or recolour the wordmark. The i-dots stay gold on dark grounds.

Small sizes

Under 160px wide, use the punched ticket on its own.

Logo files are in the Innit logo pack

LOGO SET

One logo on every ground

On gold · campaigns and the hero band

On ivory · print, packaging, letters

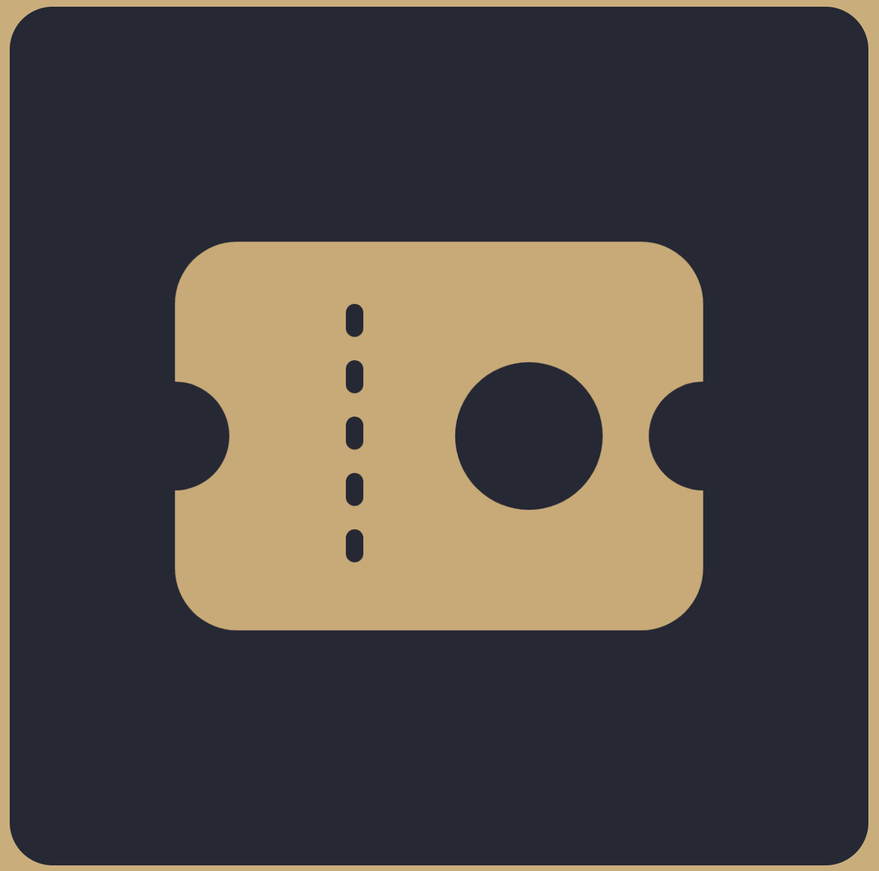

Stacked · square spaces and merch

App icon · the punched ticket

Innit · Gotta be innit to win it.

THE SYMBOL

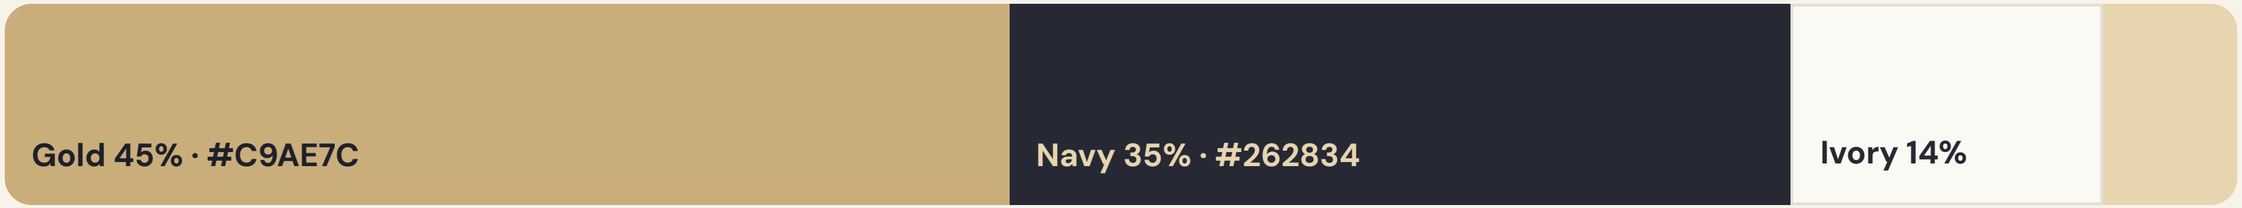

A punched ticket means you’re in

The gold dots on the two i’s are the same punch holes, carried into the wordmark. One idea runs from the logo to the moment of entry.

- App icon and favicon
- The “You’re in” confirmation, punched as you pay
- Loading states and the live-draw countdown

COLOUR AND TYPE

Same palette, turned up to gold

Be in it.

Montserrat Black for headlines: short, sentence case, ending on a full stop.

DM Sans for prices, countdowns, odds and small print.

Navy, gold and ivory, led by gold

VOICE

Playful about the prize, straight about the chances

We say

Gotta be innit to win it.
You in?
I’m in.
You’re in.
Not this time.

We never say

- ✕ **Change your life**
- ✕ **Easy money**
- ✕ **Guaranteed winner**
- ✕ **Last chance!!!**

Short sentences. British, warm, a wink, never a nudge.

“Ends tonight” only when it does. Odds and entry caps sit next to every price.

Nothing that suggests money worries, and nothing that speaks to under-18s.

Guardrails: CAP Code, DCMS voluntary code, DMCC Act (no false urgency)

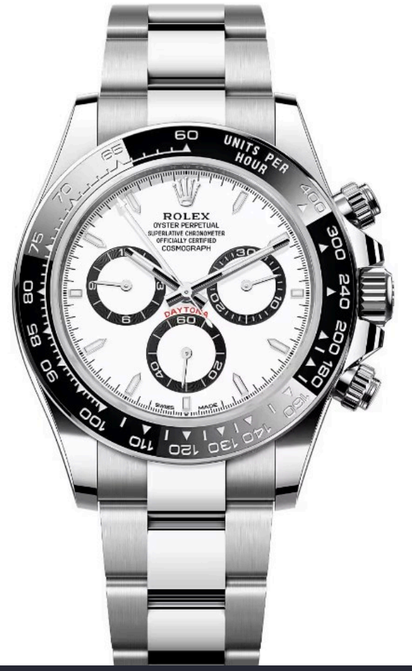

LAUNCH CAMPAIGN

BEFORE LAUNCH

Three checks before the brand goes public

1

Clear the name

UK IPO trademark search for Innit, the logo and the full line; .co.uk and .com domains; Instagram and TikTok handles.

2

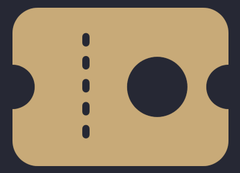

Clear the wording

Solicitor approves “Gotta be innit to win it.” and the free-entry and 18+ statements.

3

Test the creative

Run two launch ads to UK adults for two weeks before go-live and keep the one with the lower sign-up cost.

APPENDIX · FOR DESIGNERS AND DEVELOPERS

Logo specification.

Every version of the Innit logo, how it is built, the exact colours and sizes, and which file to use where. All files are in `docs/brand/` of the starter pack and in the Innit logo pack.

PRIMARY LOGO

The horizontal lockup is the default.

File `innit-horizontal-navy.png` · 1586×448 px, transparent

Use website header, emails, share images, documents

CONSTRUCTION

How the lockup is put together.

Element	Rule
Wordmark	“innit”, lower case, Montserrat Black (900), letter-spacing -0.02em
i-dots	Dotless ı with a separate round dot, so the dots can be coloured. Dot = gold on navy and ivory grounds, ivory on gold
Ticket size	Ticket height = 0.62 × wordmark font size (horizontal) · 0.70 × (stacked) · 0.66 × (nav)
Gap	Ticket to wordmark = 0.13 × font size (horizontal) · 0.07 × (stacked, vertical gap)
Alignment	Ticket centred vertically on the wordmark
Punch hole	Cut out, not filled: the background shows through

COLOUR VERSIONS

Three grounds, one logo.

On navy `innit-horizontal-navy.png`

On gold `innit-horizontal-gold.png`

On ivory `innit-horizontal-ivory.png`

Ground	Wordmark	i-dots	Ticket
Navy #262834	Ivory #F7F3EA	Gold #C9AE7C	Gold #C9AE7C
Gold #C9AE7C	Night #1E2029	Ivory #F7F3EA	Night #1E2029
Ivory #F7F3EA	Navy #262834	Gold #C9AE7C	Navy #262834

STACKED LOGO

For square and tall spaces.

On navy `innit-stacked-navy.png`

On gold `innit-stacked-gold.png`

On ivory `innit-stacked-ivory.png`

1354×912 px, transparent. Use for social avatars, story end cards, posters, splash screens and merchandise, where the horizontal version would be too wide.

WORDMARK AND HEADER LOGO

When the ticket is already on screen.

On navy `innit-wordmark-navy.png`

On gold `innit-wordmark-gold.png`

On ivory `innit-wordmark-ivory.png`

On navy `innit-nav-navy.png`

On gold `innit-nav-gold.png`

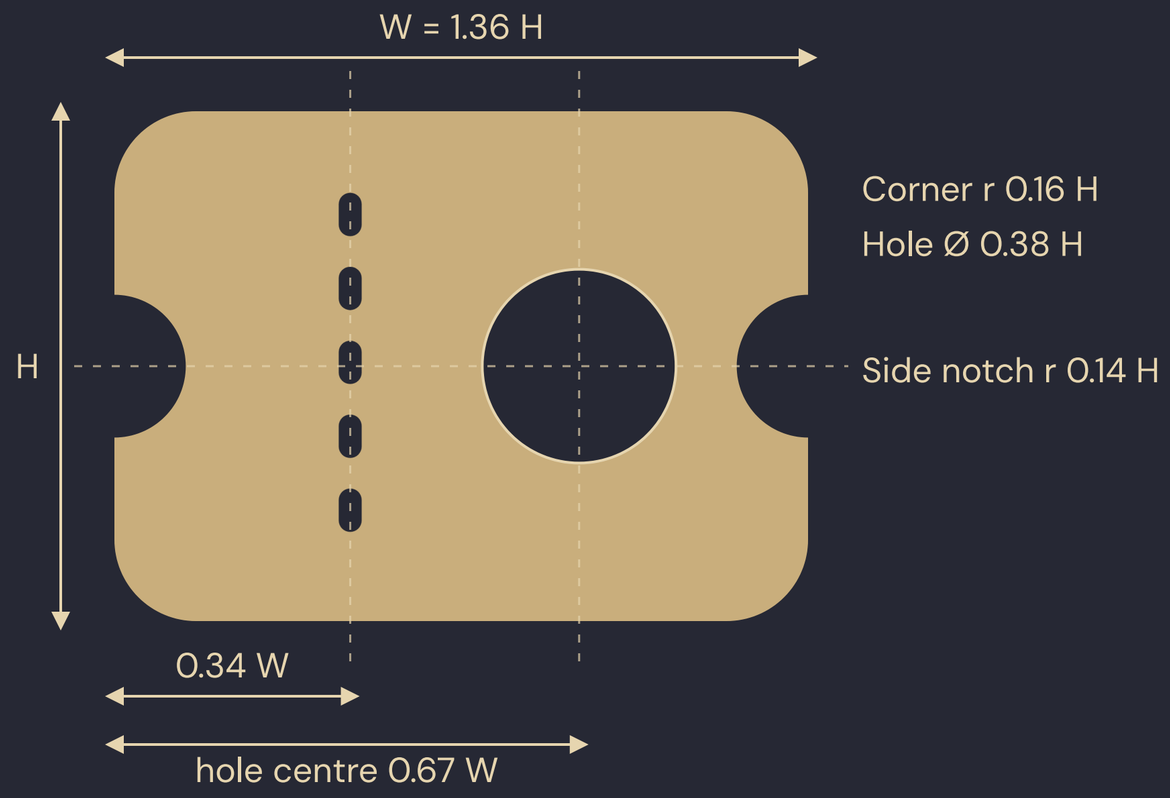

On ivory `innit-nav-ivory.png`

Wordmark 1160×448 px: use beside the app icon or where the ticket already appears. Nav 576×200 px: the compact lockup for the website header (display at 120–160 px wide) and app top bar.

THE SYMBOL

The punched ticket, measured.

Shape. A rounded ticket with a half-circle notch on each side, a dashed perforation line, and one round punch hole.

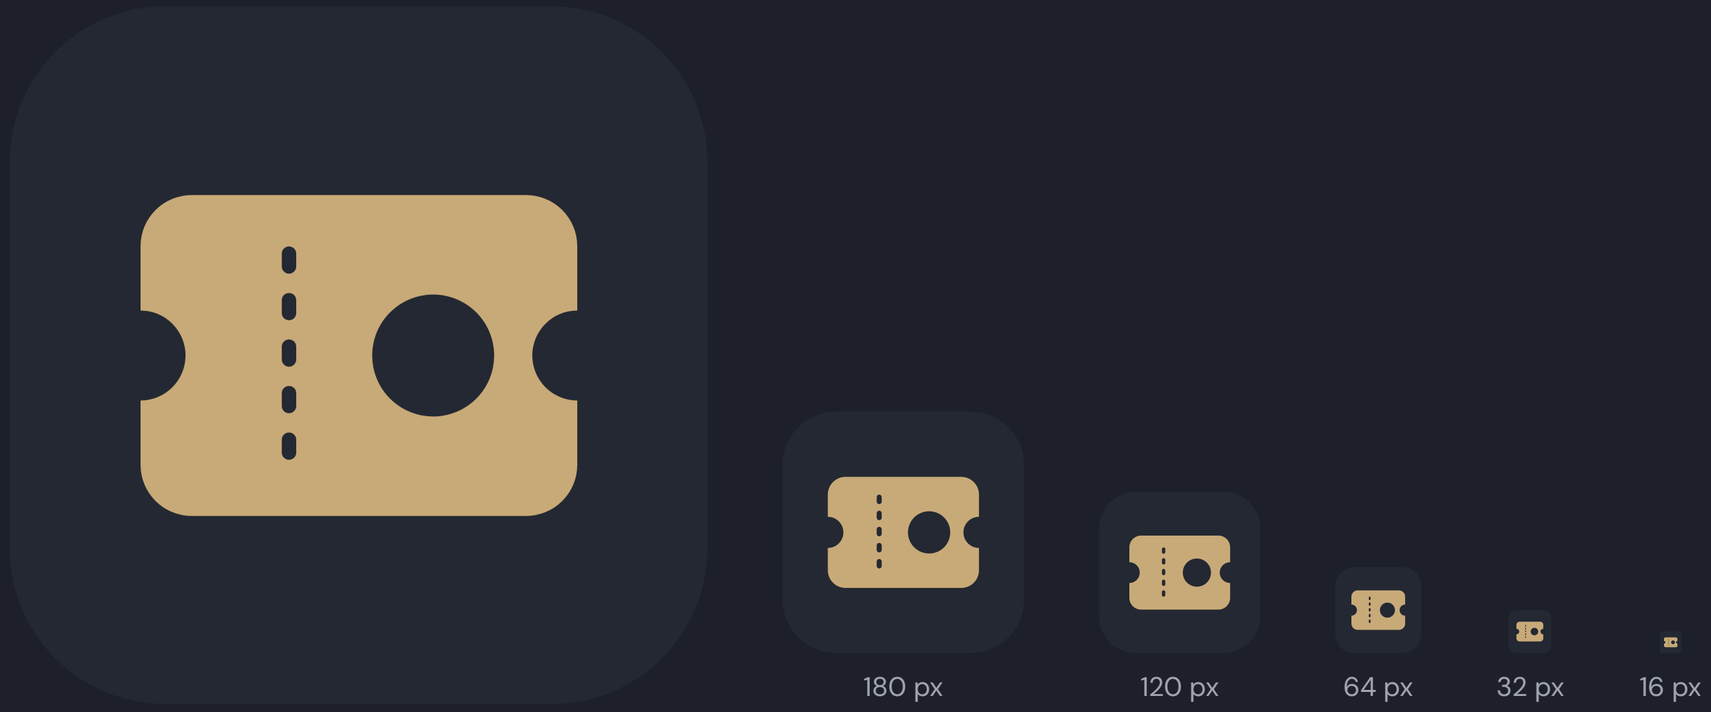

Perforation. Dashes 0.045 H wide, 0.085 H tall, 0.06 H apart, from 16% to 84% of the height.

Cut-outs. Notches, dashes and hole are transparent, never filled with a colour.

Files. `innit-ticket-gold.png` (912×696) and `innit-ticket.svg` (vector, any size).

APP ICON AND FAVICON

Gold ticket on navy, nothing else.

`innit-app-icon.png` 2048×2048	Square, no rounded corners in the file: iOS and Android apply their own mask. Ticket = 46% of icon width, centred. Also use `innit-app-icon.svg`.

CLEAR SPACE, SIZES AND MISUSE

Give it room. Never change it.

Clear space on every side = the punch-hole diameter (0.38 × ticket height). **Minimum size:** horizontal 160 px wide on screen (35 mm print); below that use the ticket alone, minimum 24 px tall.

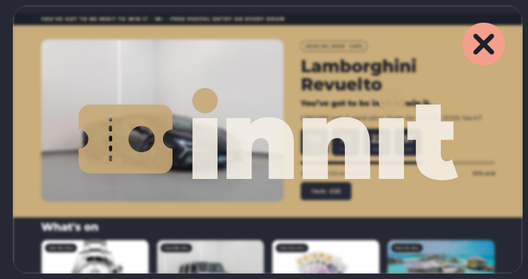

Don’t stretch or squash

Don’t recolour

Don’t rotate

Don’t place on busy photos without a navy panel
